

# ND7 (Nexdol) – Whitepaper

An Innovative Blockchain-Based  
Financial Ecosystem

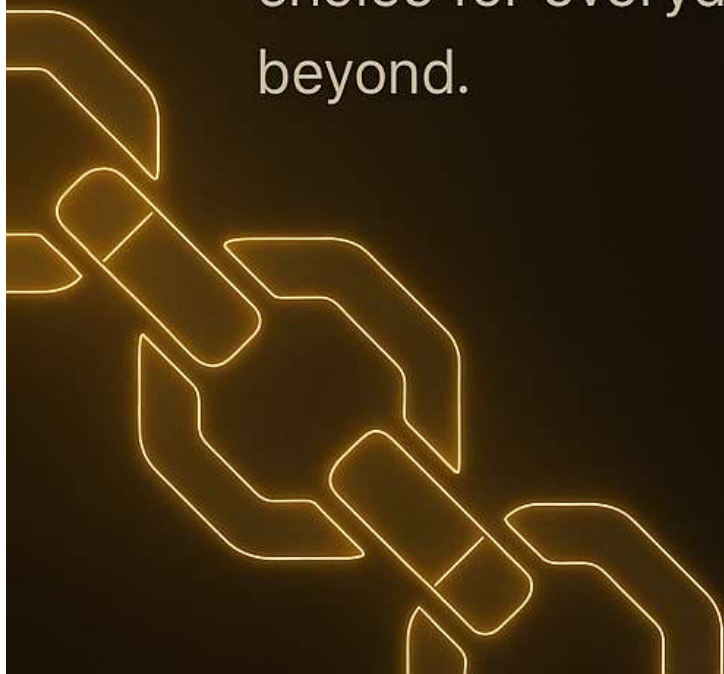

Built by: ND7 Core Team

# Introduction

ND7 redefines how users interact with digital assets by prioritizing real-world usability. Built for payments via crypto cards, ND7 also supports DeFi and NFT ecosystems, offering a scalable and secure token for a global audience.

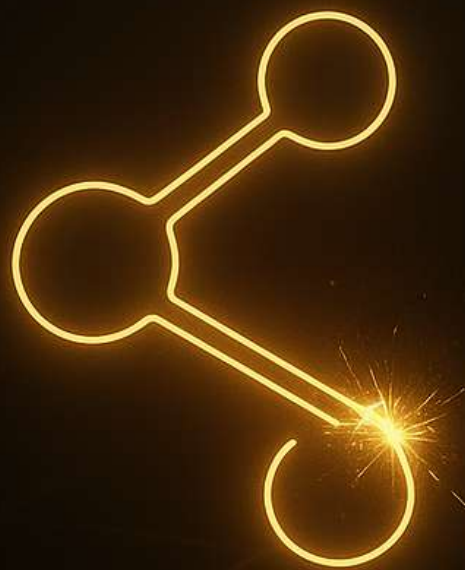

Our innovative supply management ensures efficiency, making ND7 a reliable choice for everyday transactions and beyond.

# Problem Statement

Cross-border payments remain slow (3-5 days) and expensive (7% fees), while digital assets often lack practical use cases.

DeFi and NFT platforms also face liquidity and scalability challenges.

# SOLUTION OVERVIEW

## Crypto Card Payments

ND7 powers virtual and physical crypto cards, enabling users to transfer ND7 to their cards and spend it globally via partnerships with payment giants (Visa/Mastercard).

## Supply Management

An advanced algorithm adjusts ND7's supply based on market demand, ensuring efficiency and reliability for payments.

## DeFi Lending and Staking

Users can lend ND7 for interest or stake it in liquidity pools, enhancing ecosystem utility.

## NFT Integration

ND7 supports NFT creation and trading, expanding its use case into the digital collectibles market.

# TOKENOMICS

Total Supply: 10.000.000.00 ND7 tokens

Allocation	Allocation
Public Sale	25% (2.5B ND7)
Development Team	15% (1.5B ND7)
Advisors & Partners	10% (1B ND7)
Liquidity Reserve	20% (2B ND7)
Incentives & Rewards	10% (1B ND7)
Future Development	10% (1B ND7)
Marketing & Growth	10% (1B ND7)

**Token Utility:** Transfer ND7 to crypto cards for spending, stake or lend for rewards, with 1% of fees burned quarterly.

**Meme7:** A Shabex meme coin with 5M tokens up for grabs. See the Meme7 Airdrop for details.

# ROADMAP

## Q1 2025:

Whitepaper, testnet launch, and initial testing.

## Q2 2025:

ICO, DEX listing, and ecosystem rollout.

## Q3 2025:

DeFi lending/staking launch, crypto card prototype.

## Q4 2025:

Crypto card rollout (Phase 1), NFT marketplace debut.

## Long-Term (2026+):

Full card adoption and global expansion.
